Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

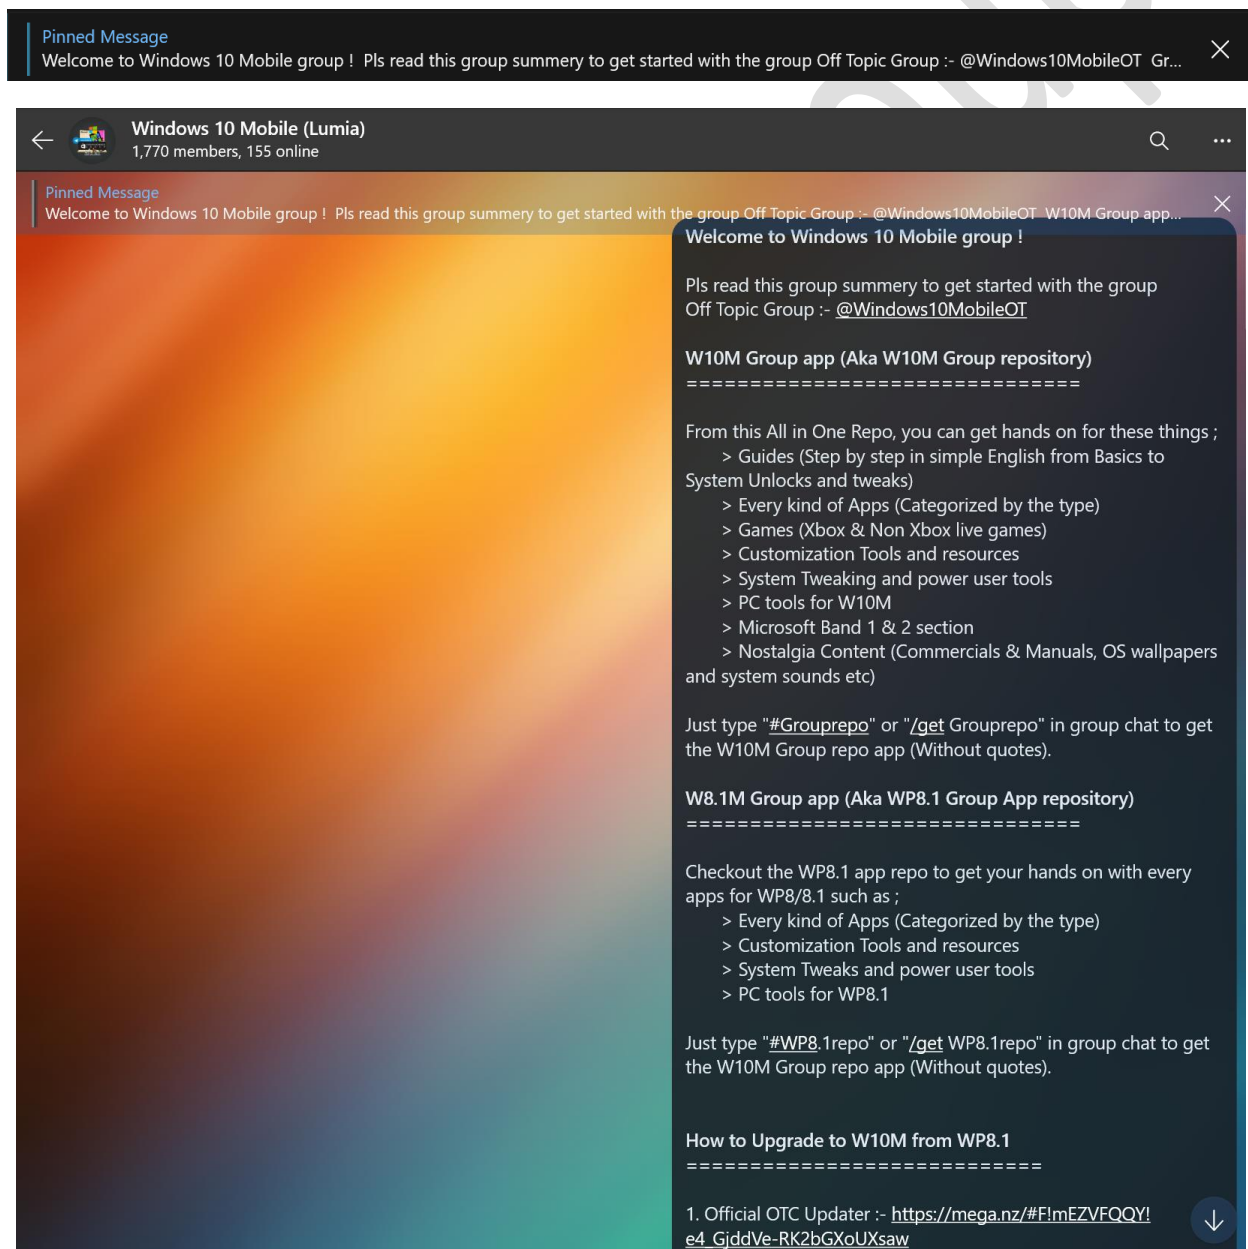

## 1. Welcoming and Introduction Notes

First of All, I would like to Thank you for Joining with Us !

All nations are welcome around the globe to join with Us as long as they choose to stay under the Group rules Which we are going to discuss later, there are no Region/Country restrictions from Us.

First of all, Pls take a minute to read the [pinned msg](#) of the Group to get to know about some major infos and resources of the Group.

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

## 2. Obtaining and Installing the W10M Group UWP app

---

> W10M (Lumia) Group has it's own Universal app that acts as the Group's Cloud Repository along with a lot of other features and usages

### Note

Group resources are NOT stored in Telegram Group files, so always go for the app to access & download Group resources.

Main role :- W10M Group repository

---

Enjoy obtaining everything about W10M with Store like experience & Features ;

- ✓ Guides (Step by step from Basics to Advance)
- ✓ Every kind of Apps (Categorized by the type)
- ✓ Games (Xbox & Non Xbox live games)
- ✓ Customization Tools and resources
- ✓ System Tweaks and Power-user tools
- ✓ PC tools for W10M
- ✓ Nostalgic Content (OS wallpapers, sounds + Resources etc)

Other roles and functionalities

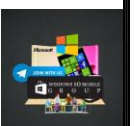

---

- ❖ Internet Download Manager
- ❖ Mega Repository host
- ❖ Task Manager
- ❖ Packages Manager
- ❖ Advanced Browser
- ❖ Translator
- ❖ Application Installer
- ❖ Scripts executor

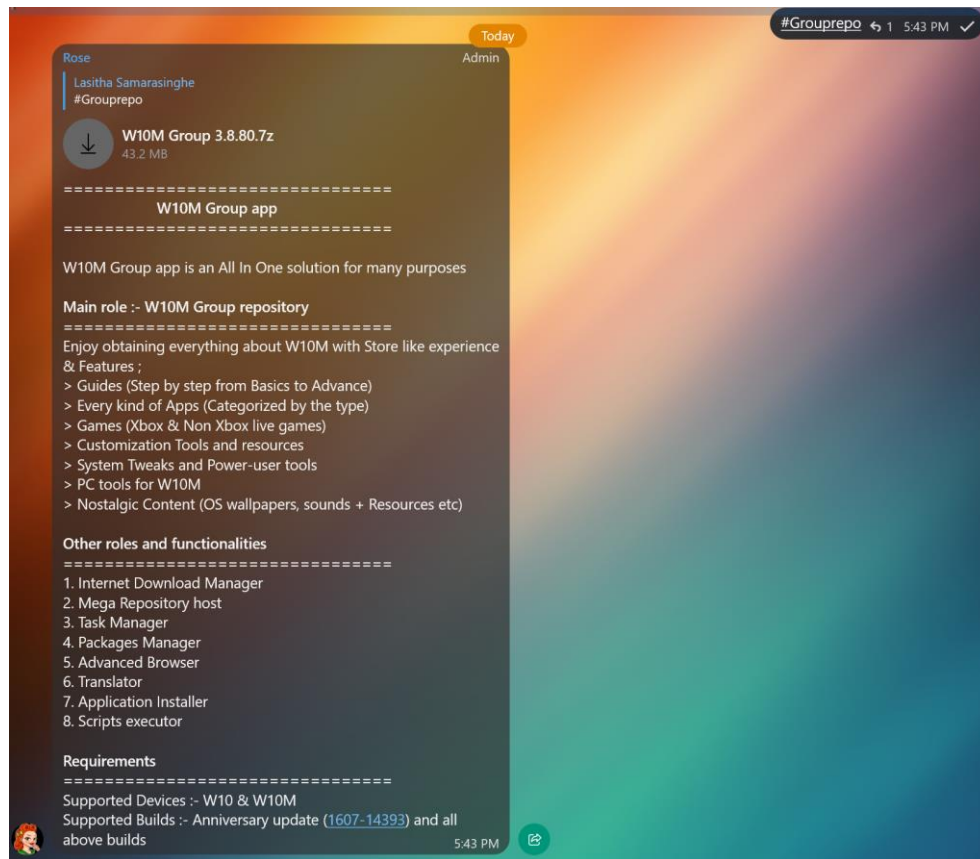

**Ok, Enough introductions, let's get your hands on with the W10M Group app.**

> Type **#Grouprepo** OR **/get Grouprepo** (Lower or Upper cases doesn't matter for the commands)

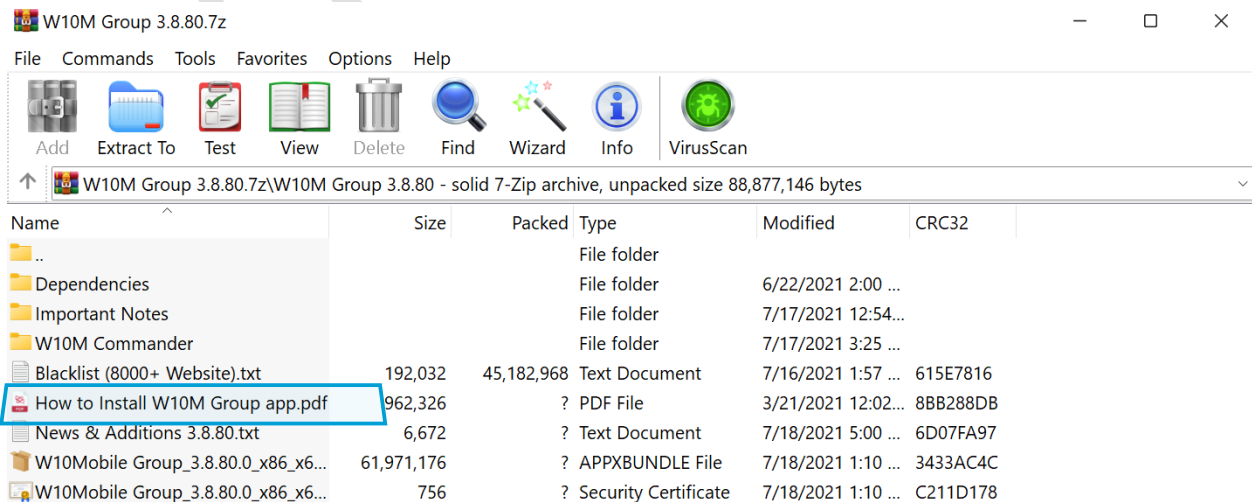

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

> Then hit enter to send the message and then you will get an auto reply from Rose (Assistant Bot) that will include the W10M Group.Zip file along with Information about the App.

> Download the Zip and Open it in Phone or PC, Read the “How to Install W10M Group app” to get to know how to install the App in Both your PC and Mobile ;

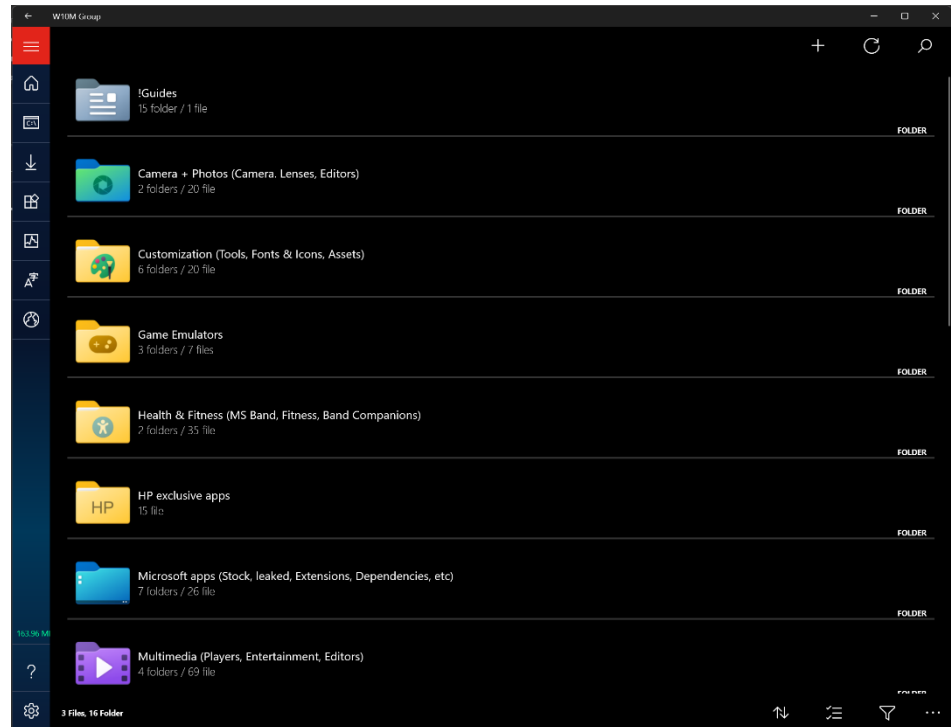

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

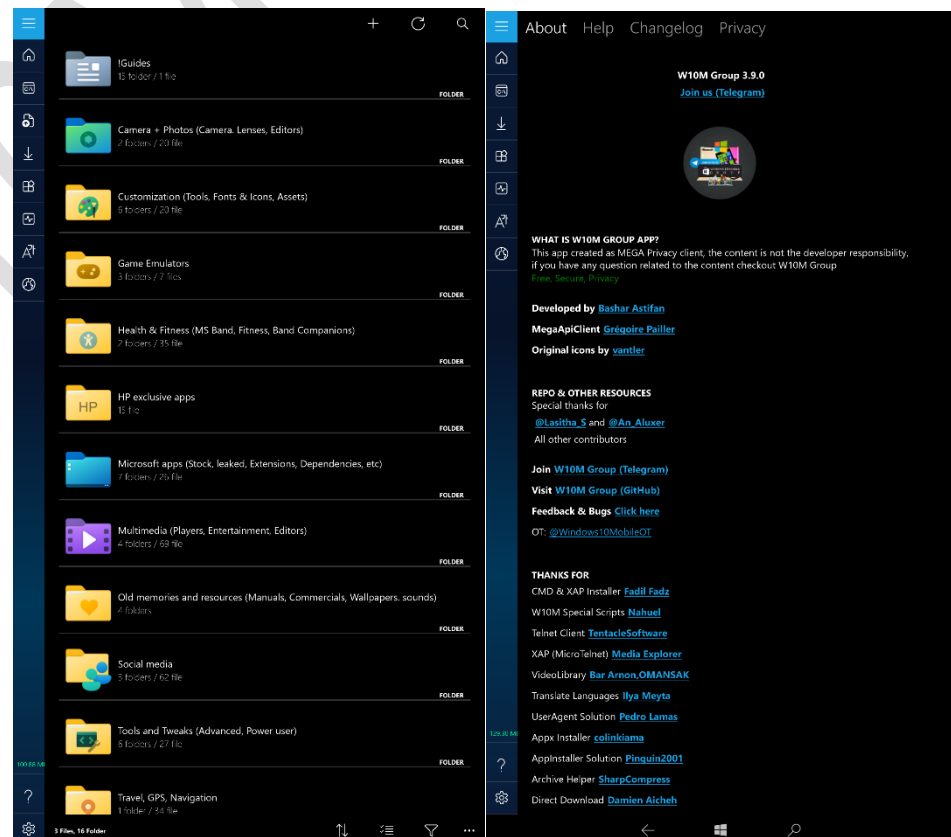

> App is designed to run in both ARM and X86 and X64 architectures means it will run in both Mobile & PC but only Windows 10/11 PCs and Mobile at least for now....

## Windows 10/11

## Windows 10 Mobile

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

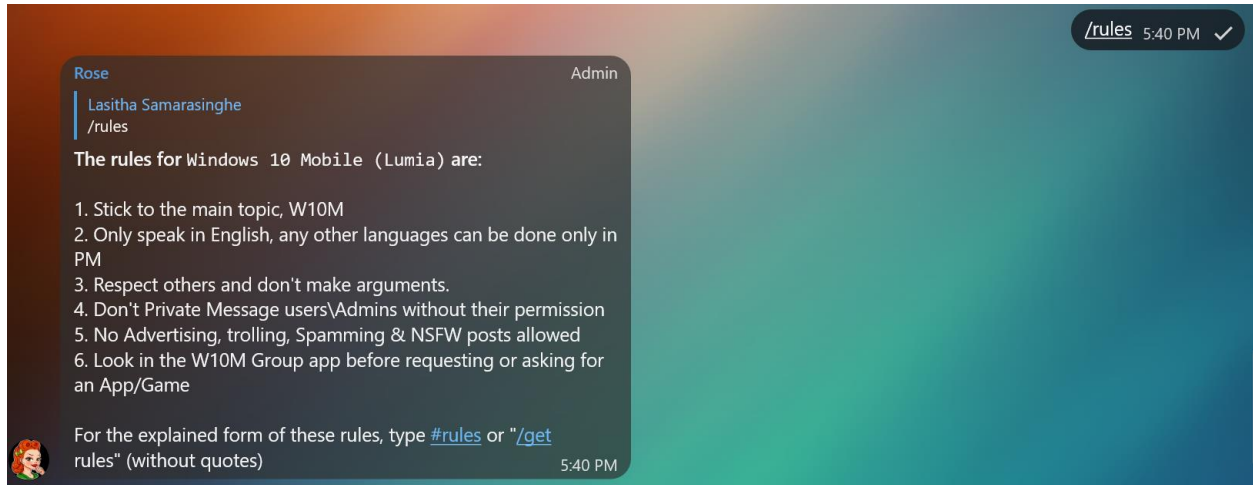

### 3. Rules and Regulations

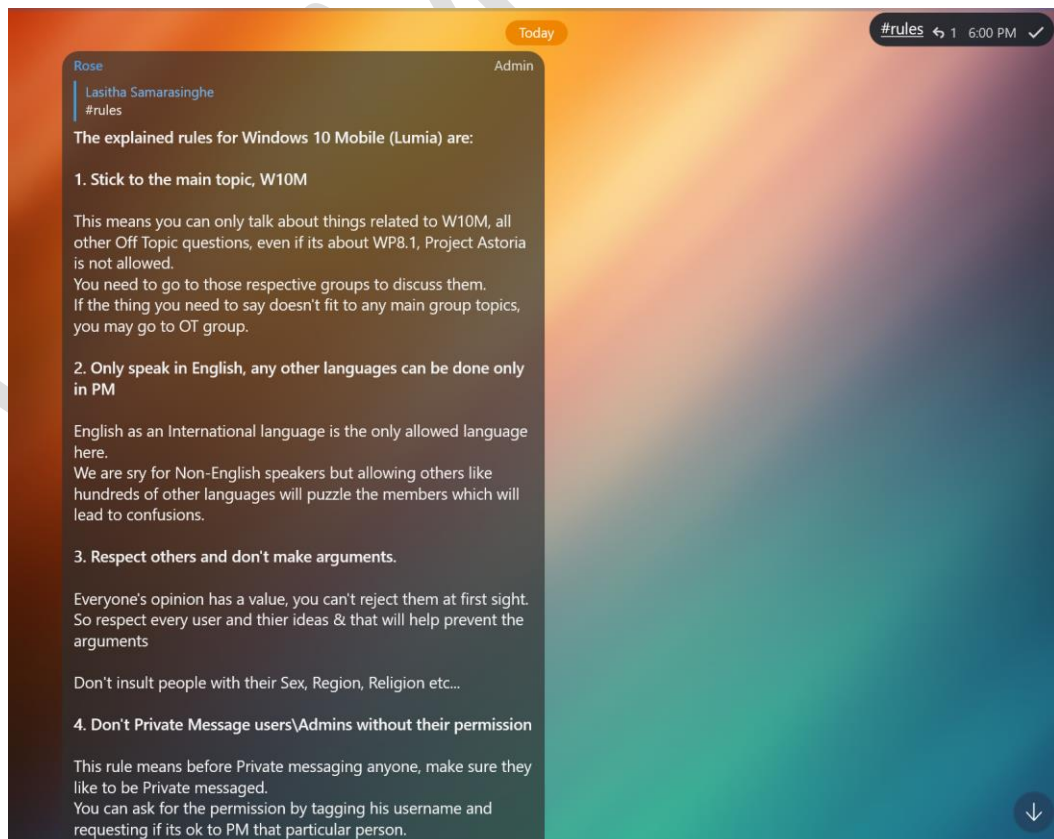

Rules are simple but will be monitored preciously to the letter ;

Type **/rules** to get the Rules from the Rose Bot.

There is an explained form of rules too describing what is meant by each rule.

Type **#Rules** or **/Get Rules** to retrieve it.

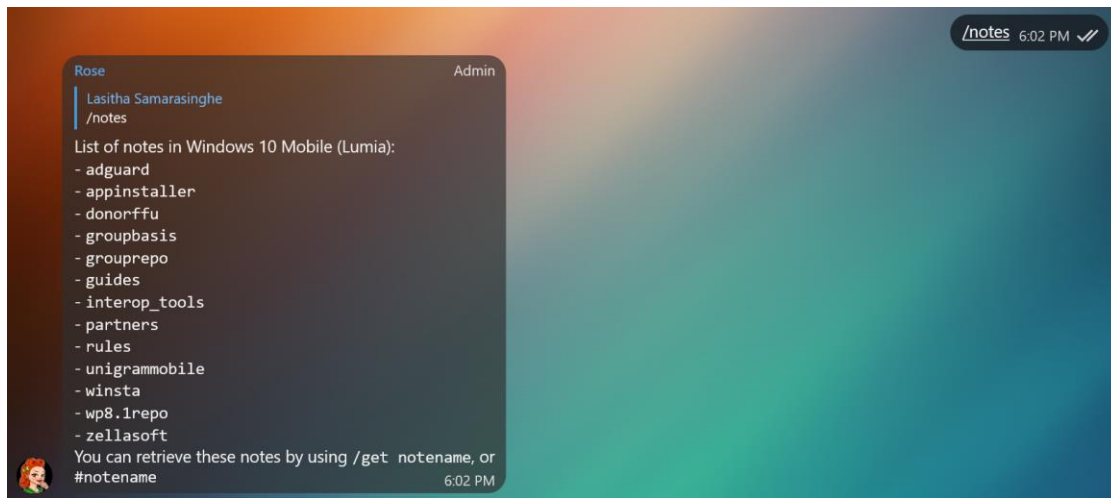

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

#### 4. Retrieving Group Notes

- > Notes are used to store some valuable resources and information.
- > You can look what kind of notes a group has by issuing the below command ;

**/notes**

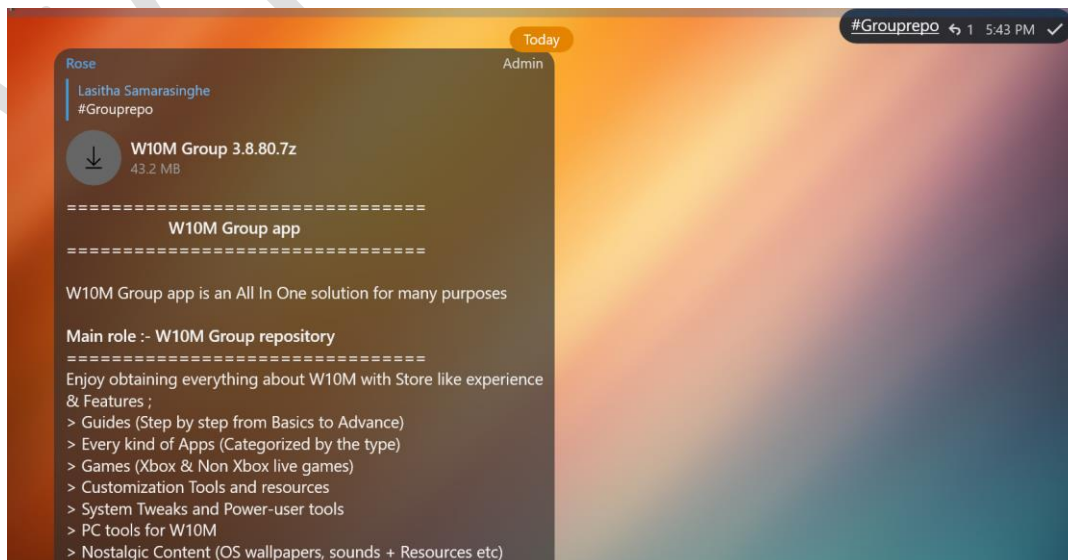

- > You can use two commands when you need to see the bodies of those notes, the syntax is ;

**/get NOTENAME**

**#NOTENAME**

As an example if you want to see what that “Grouprepo” note has it in, you can use either any of the below commands (Follow the same with other Notes)

**/get Grouprepo OR #Grouprepo**

Windows 10 Mobile (Lumia) Group :- <https://t.me/Windows10Phone>

## 5. Other Additional Information

---

### 1. How can you help to Enforce the Rules ?

There can be times where all the Admins are away and an Spammer is flooding the Group.

Although times like this are very rare as we always try to monitor the group 24 Hours, you can report the User to Admins by Using /Report feature in Rose bot.

Reply to one of the posts of the Spammer with “/Report” (Without quotes)

Then a Notification will be sent to every Admin about the Spammer.

### 2. How to Suggest New contents to W10M Group App

Send a Message in Group stating the Content/s you like to see in W10M Group app and state that you like to have it added to the W10M Group app.

### 3. Is W10M Group app the only method of accessing Repository ? What about the Telegram Group files ?

Yes, W10M Group app is the main and only recommended way to access Group resources, Telegram Group files are not maintained and new contents will not be added to Telegram Group files, they will only be added to W10M Group Repo which can be accessed with W10M Group app.

### 4. Have a personal opinion about W10M Group which you like to see in the Group like change of Rules or any other ?

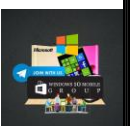

Message Me ( [https://t.me/Lasitha\\_S](https://t.me/Lasitha_S) ) about your opinion, I can't guarantee that it will be included into the Group but as long as it's a good suggestion I will take it to my mind.

#### Notice

If a User is not allowed to Chat in the Group when joined for the very first time, it may be because of Telegram restrictions. If you know a person that has been blocked to chat in the Group, let [me](#) know so I can gain him that access.

#### Notice

Rose Bot Documentation Site for More Commands :- <https://missrose.org/>

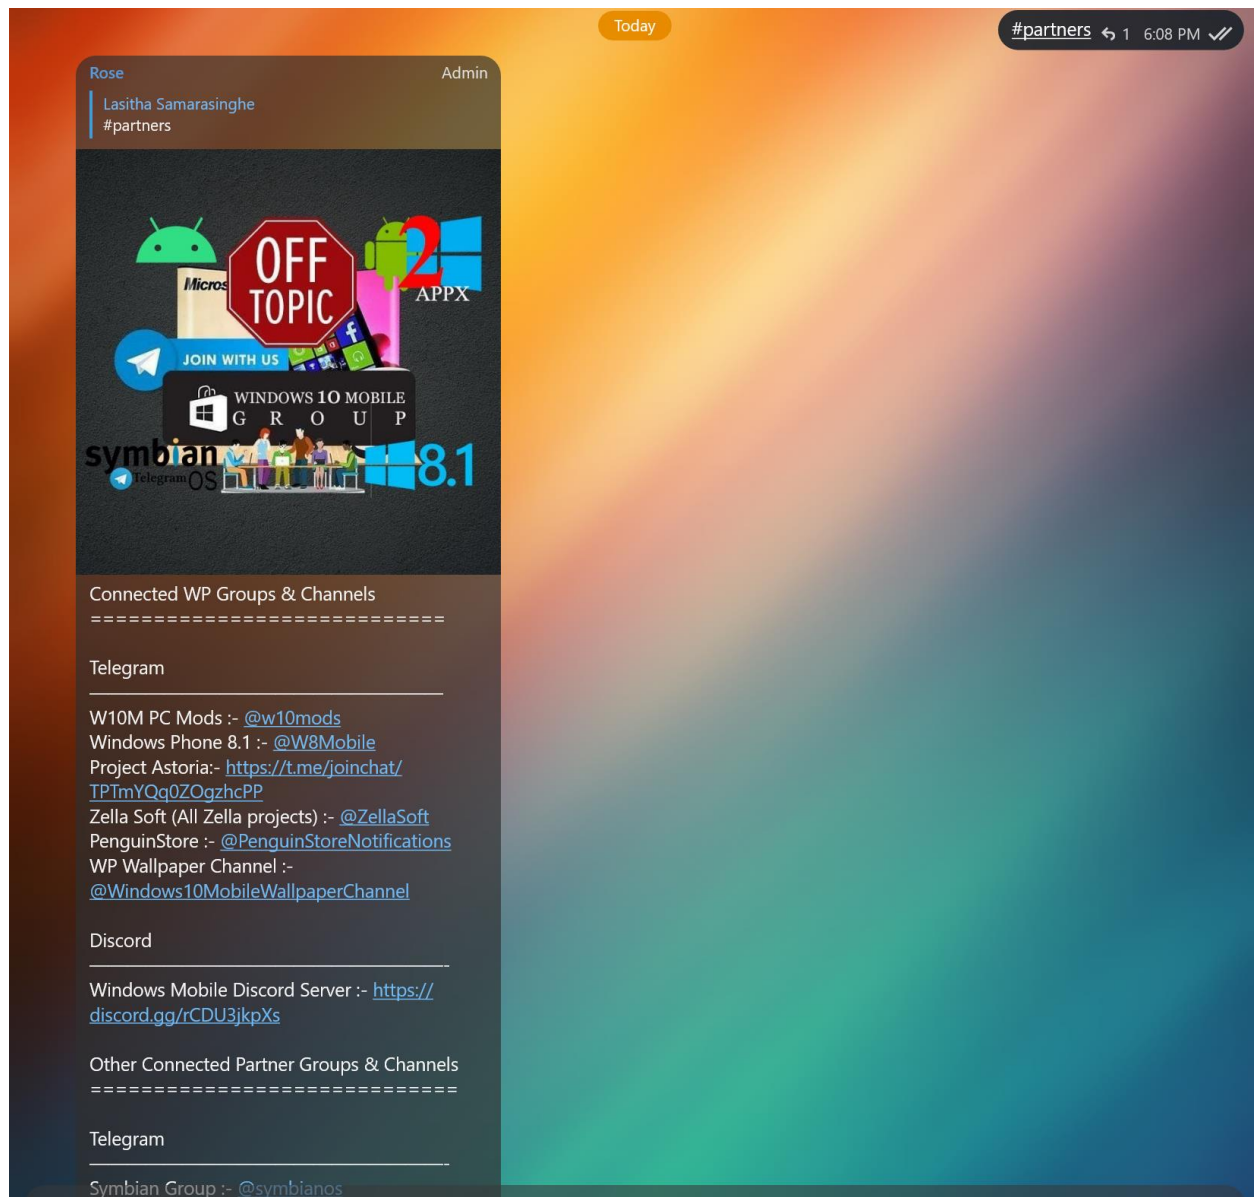

## 6. Join with Us in our Other Groups

We have some other groups that are ours or are belongs to Partners.

Type **#Partners** or **/get Partners** to get the invite links to those groups.
